EXPERIENCE

IT Product Manager

2012-PRESENT

I sell and provide services and solutions to diverse clientele, managing comprehensive, complex engagements between engineers, finance, and technicians to deploy network, server, and IP technology. I remain informed of IT lifecycle solutions, industry innovations, trends and forecasts, and develop IT solution plans to extend lifecycles

Sr Bus Development Specialist

2011-2012

I sold and facilitated problem-solving solutions, mastered Workforce Management problem resolution, and trained and mentored peers.

Account Representative

2007-2011

I purchased and sold a diverse range of IT products and services, had ongoing engagement with clients to heighten the customer experience, maintained a strong knowledge of industry and technology lifecycles, and mentored and developed peers.

SKILLS

- Technology Infrastructure Knowledge- SaaS and Datacenter
